TITLE : INK-REMOVING AGENT

ABSTRACT : PURPOSE: To provide an ink-removing agent capable of regenerating a high quality pulp having a high whiteness degree and containing a little amount of remained ink and useful for producing regenerated pulp from printed waste papers such as newspaper, magazines and leaflets by containing an alkali lipase.

CONSTITUTION: The objective ink-removing agent contains an alkali lipase [preferably one produced from *Aspergillus oryzae* by genetic operations or one produced from the genus *Humicola* strain including the genus *Thermomyces*].
